CMT Mission & Dedication

By Suzanne Robidoux, Ph, D. L. Ac.

After living, studying and working in China for over a decade, with a passion for the ancient practices of Chinese medicine, martial arts and cultural skills, I have decided to start sharing the knowledge and experience I have had the pleasure to learn from my teachers and masters. CMT is a platform to link these teachers to anyone who has the same passion and interest. CMT's goal and mission are to bridge the distance, facilitate the language and venue and create a place where similar minds and hearts can meet and share.
